

PROJECT MANAGER

Join our team and contribute in building a new brand in a unique company. Do you want to work with global customers bringing their colour design to reality? We offer technology that disrupt traditional management of colours in our clients' quality processes. We are now looking for new talents to break through and lead small and big projects. Moreover, if you are driven and ambitious, there is great possibility to develop within this role.

YOUR PRIMARY AREAS OF RESPONSIBILITY

- Technical and commercial project manager for customer projects
- Technical specialist & technical support (colour measurement)
- Colour Measurement (lab&field) and technical analyses
- Put technical results into context and make data understandable to non-technicians
- Sales role in projects

THE ROLE WILL SUIT SOMEONE WHO

- Has a M.Sc. degree, probably in Material Engineering, Mechanical Engineering or similar
- Is newly graduated or with a few years' working experience
- Genuine technical and commercial interest
- Has possibility to travel with short notice
- Is a curious team player
- Has an analytical mind and pay great attention to details
- Is communicative and clear
- Has a natural service-minded approach
- Is fluent in English
- German, Swedish, French or Chinese are beneficial
- Skilled in Microsoft Office - Excel and Access
- Flexible personality

About CAPQ

CAPQ is a brand and division under NCS Colour AB. NCS Colour is with its patented colour system – Natural Colour System ® leading within colour management and represented in over 80 countries. For 35 years we have helped our customers to develop and communicate their products and services where colour is a crucial factor to success. We offer physical colour products, digital solutions, services and inspiration from our global headquarter in Stockholm, Sweden and offices in Germany and China. Furthermore, at CAPQ we offer unique digital solutions within colour management to support the Industry 4.0 revolution. Our customers are in the forefront of their industries and include premium brands within automotive, electronics and appliances.

SOUNDS INTERESTING?

Send your CV and a covering letter to apply for the post in our CAPQ team in Stockholm. Interviews will take place on an ongoing basis and the final application date is 31st October 2017.

Looking forward to hear from you,

Nikolina Frisk

Team Leader
